

RAJVEER EXIM WE TRADE THE WORLD

Most Successful Exporter And Renowned Exporter Of Fresh And Dry Fruits In India.

About Us

Our Vision

We want to become the most successful exporter and renowned exporter of fresh and dry fruits in India.

Our Mission

We strive to provide supreme quality products to our clients and to make them completely satisfied with our services.

Our Commitment

It has been now a well accepted fact that excessive use of chemicals is very hazardous to our life. And that's the reason why consumers are now giving preference to organic farming. All the materials used for such crops i.e. manures; fertilizers, insecticides, pesticides and storage procedures are organic. Our company understands the importance of organic products and we are committed to give the quality products which are fully organic. So stay fit, stay healthy and enjoy delicious fruits and spices with us. As we want you to remain away from the toxins of the chemicals.

Trust us and never look back!

These eatables are packed and stored in favorable environment for preserving their aroma, flavor and nutritional value.

Our Team

We have a smart team of experienced professionals who handles the export work with efficiency and do on time delivery. We bring on the table our hard work and provide you products at a competitive price. We always empower our team and make them aware about new technologies of storage and processing.

Services

WHO WE ARE ..!

We are a prominent exporter of raisins and pomegranate. And when it comes to export we haven't limited ourselves to just one variety of products. We have a good collection of different types of raisins and pomegranate.

In raisins we export brown, green, golden, yellow and black raisins. And our pomegranate varieties cover Ganesh, Bhagwa and Arkata.

We store pomegranate at a cool place and keep it at a temperature of 7°C in a humidity of 90-95% and this is the best way to increase their life. Talking about Raisins, all of them are kept in air tight packets with proper refrigeration which keep them suitable for more than a year. Quality is an uncompromising factor for us and that's the reason we emphasize more on storage facility.

HOW WE WORK..!

Now-a-days demand of organic fruits has been increased because of the hazardous effects of pesticides and other chemicals. We give priority to organic products and all our pomegranates and raisins are organically prepared. For retaining the quality of products, we maintain their favorable temperature and keep them refrigerated even during transportation. We have a separate space for cold storage and processing.

QUALITY PRODUCT..!

The one thing which comes in everyone's mind while buying any food product is the quality. As in today's life adulteration and use of harmful chemicals has become a common thing. But when it comes to quality, our products are matchless.

Our company strictly follows the regulations of quality checks and this is what liked by our clients the most. Our stringent quality and continuous monitoring by specialized monitors ensures that the food items don't lose their quality and freshness even during transportation.

Our quality can be judged from the organic products we export. We handpick the fruits and spices from authentic farms and keep an eye on their farming activities. We ensure that our fruits and spices are delivered within bound time for preserving their shelf life. And such facilities have made us an esteemed exporter of pomegranate and raisins. customers is the mouthwatering taste and good nutrients.

Black Raisins HS CODE(08062010)

Black raisins are made through regular grapes which are mostly sold in supermarkets. While the black raisins are laid down in sunlight for one week.

Golden Raisins HS CODE(08062010)

Golden raisins are made from seedless grapes. As compared to other raisins, golden one absorbs water easily and are little bit more sweet and small in size.

Yellow Raisins HS CODE(08062010)

Yellow raisins are made through regular grapes which are mostly sold in supermarkets. While yellow raisins are coated with sulfur dioxide and are dipped in warm water for retaining their yellow color. And yellow raisins are dried in air for only 24 hours.

Brown Raisins HS CODE(08062010)

Brown raisins are made from Muscat grapes. These grapes are treated under mechanical process which results in removal of seeds after drying.

Green Raisins HS CODE(08062010)

Green raisins are made by sun drying green seedless grapes and no additional sugar, oil or fat is added in this raisin. These raisins are fruity in taste and fibrous in texture.

Pomegranate HS CODE(08109010)

Rajveer Exim is a horticulture firm which has earned name and fame in exporting fresh and juicy pomegranates.

Description

Rajveer Exim is a horticulture firm which has earned name and fame in exporting fresh and juicy pomegranates. We export all types of pomegranates which include Bhagwa, Arkata and Ganesh. Bhagwa has thick, smooth outer skin while Ganesh has light color with yellowish pink outer skin. The Arakta variety in pomegranate comes in bigger size and they are sweet with soft seeds. Besides all these varieties the one thing which is common among all pomegranates is their high nutritious value.

Nutrition in Pomegranate

Pomegranate is called as 'superfood' which is packed with fiber, Vitamin B, Vitamin C, Vitamin K and Potassium. 100 gm of Pomegranate possess 83 calories which is more than an apple. It doesn't contain any cholesterol or saturated fats. Regular consumption of Pomegranate can help in the treatment of prostate cancer, lymphoma and diabetes.

Storage procedure of pomegranate

The best way to give long life to pomegranate is to store it in cool place and avoid direct sunlight. If refrigerated properly, these fruits can last for more than two months. We give adequate temperature to pomegranate for retaining their freshness and quality. We keep it at 7°C with a relative humidity of 90–95% even during transportation in order to avoid chilling injury.
